

VETERANS' MILITARY BALL WAS A GRAND SUCCESS

"There was a sound of revelry by night, and Belgium's capital had gathered there her beauty and her chivalry"—only this military ball was at Macleod instead of Brussels and was not on the eve of Waterloo but close following hundreds of hard fought engagements compared to any of which Waterloo's sanguinary field pales to insignificance. The occasion was the celebration by Macleod's war heroes of the winning of the Great War and the date was Nov. 11th, 1920, the second anniversary of Armistice Day, the event—the military ball staged by the Macleod branch of the G.W.V.A.

The hall decorations were expressive to a degree of the sentiment of the occasion. On the side walls were seven shields decorated with Beaver and Maple Leaf and inscribed with the names of engagements in which Canadian heroism had won laurels of victory or valiantly stood the brunt of adverse fortunes of war—fields in every case saturated with the blood of Canada's manhood—fields which wrote an epic of modern chivalry unsurpassed in historic annals whether it be of joust or tournament or Crusade—fields where Canadians in thousands won the accolade of manhood which is greater than that of knighthood—Hill 70—Passchendaele—Lens—Ypres—Arras—Sanctuary Wood—St. Julien—Amiens—Mons—Cambrai—Quent—Vimy—Somme—Gourcellette—Festubert—Givency and Bonillon Wood. Beneath each shield was a trooper's sabre and scabbard crossed. Above around the hall was a running panel of red, white and blue. Between the shields were pennants representing colors as worn on the field by every unit of the Canadian Expeditionary Force. Around the supporting pillars were intertwined Union Jacks, Canadian flags, Scotch emblems, Irish tokens, tri-colors of France and Belgium and the Stars and Stripes of our neighboring republic. The ceiling was draped with bunting in colors of the Allies interspersed with lighting effects—the ensemble being one of brilliant military pageantry.

At 9.30 the revelry commenced and within half an hour the ball room was filled to its capacity and was a scene of beauty and brilliance not to be easily forgotten—officers of land and air forces in full military regalia, N.C.O.'s, and privates in honored khaki mounted police in scarlet, nurses of the Red Cross in uniform, women in lovely gowns and men in immaculate evening clothes intermingled in a panorama of colorful gaiety.

At twelve o'clock, a delicious repast was served after which terpsichorean activities were resumed till three a.m.

Bugler C. Edgar blew "fall in" for the grand march, "cook house" for the collation served later, and "lights out" for the finale.

The committee in charge, Messrs. McGladdery, McLarty, Whitefoot, Pollard, Cowan and Roberts are to be congratulated on the successful issue of the ball and particularly on their conception and carrying out of the decorative effects. Pte. McGladdery performed the onerous duties of Master of Ceremonies for the evening.

"COMING EVENTS CAST THEIR SHADOWS BEFORE"

GREAT WAR NEXT OF KIN DANCE

The Great War Next-of-Kin Association, Macleod branch, will give a dance on Tuesday, Nov. 30th, in the G.W.V.A. Hall, Macleod. Proceeds for Next-of-Kin War Memorial Fund. Every effort will be put forth to make this a highly pleasant affair. Good music, good floor management, and refreshments par excellence. Keep this date open. Ladies' 50c., gentlemen \$1.00.

R. C. SALE OF WORK

The Ladies' Aid of the R. C. church will hold a Sale of Work in the Town Hall on Saturday, Nov. 27th. Tea will be served from 3 o'clock to 5.30, supper from 5.30. Don't forget the date. 37-2t

METHODIST CHURCH

Sunday services—The pastor will preach both morning and evening. Sunday school at 2.30 p.m. Monday the Trail Rangers meet at 4.15 p.m. Wednesday—Union prayer meeting in the Presbyterian church at 8 p.m. Rev. W. A. Lewis, B.A., Pastor.

ALLENFIELDS

On Sunday Nov 28 there will be a special service in the school house at 3 p.m. Special speakers and music. On Monday the 29th a social evening will be held, supper to be served followed by a program of moving pictures and music. Every person in the community invited. W. H. DAY, Pastor.

The regular meeting of the Women's Hospital Aid will be held in the Methodist Hall, on Nov. 23rd, at 8 p.m. 37-1t

LARGE REWARD FOR ARREST OF JAMES BULLER

WINNIPEG, Nov. 15.—A reward of \$2,500 for information leading to the arrest of the slayer of Alexander McCurdy, provincial morality chief, and the wounding of James Uttley and Jack Dineen, members of the squad in the Stockyards Hotel, St. Boniface, last Thursday, was offered by the provincial government today, at the instance of the attorney-general's office.

Police assert that "James Brown" who did the shooting is James Buller, alias Bullard, alias "Kid Gray" known throughout the west as a notable safe breaker, confidence man and gun wielder. The description of the slayer, as given by surviving members of the liquor raiding party, tallies with the descriptions furnished by Winnipeg, Calgary, Regina and Vancouver police of Buller.—Calgary Herald.

SOONER OR LATER

"When a man tries to affect a reconciliation between his pal and his pal's wife, he usually lands in hot water, even though the scheme was proposed by his pal."

This is what happened to Patrick Murphy (Owen Moore) in "Sooner or Later" which opens a two day engagement at the Empress theatre next Wednesday and Thursday. Patrick enters into a conspiracy with his bosom friend, Robert Ellis, to do the Sherlock Holmes act and locate the whereabouts of Robert's wife. The young bride has disappeared from home and Robert believes that she has become false to her marriage vows and has fled from his manly protection.

Patrick sets forth on his mission and then the complications begin to arise. He abducts a girl and before the confusing tangles have been straightened he finds himself married to a girl whom he before had never known.

"Sooner or Later" is straight comedy-drama of the cleanest variety and is said to furnish Owen Moore with a role to which he is particularly adapted.

ing most commendably and the music by Smith's orchestra was all that could be desired.

To say that the function was successful is faint praise—to say that it fulfilled expectations created by the Masquerade Ball is partly adequate in that it surpassed all expectations.

Mayor Fawcett's Speech

In view of the import of the Armistice anniversary it was considered seemly that Macleod's mayor should dignify the occasion by addressing the veterans and their guests and on request immediately after luncheon Mayor Fawcett voiced the sentiments of Macleod in the following appropriate appreciation:

"Two years ago today the world was under the greatest tension ever known to this generation. Two years ago all over Canada families, rich and poor, of high and low estate, were waiting fearing the next report of the killed and wounded. Two years ago today all up and down those miles and miles of trenches the Allies with our Canadian boys, many from our own community were holding steadfast—hour, a day, a week, a month, a year, four years you men and your comrades held firm—foot by foot, yard by yard, mile by mile you steadily moved forward toward the great objective. Two years ago today you still held grimly on to your various positions, and were still ever advancing, ever making good, when suddenly without warning the news was flashed from trench to trench that the Germans had asked for an armistice and your last shot in the Great War had been fired. Two years ago we in our Canadian homes were still undisturbed, still secure in our property, and homes protected during those four strenuous years by you and your Canadian comrades.

"Tonight we pause again to mark our appreciation, once again we extend our thanks to you for those years of service, and tonight I trust with a better understanding, I, as the representative of the good people of this town publicly thank you and all the members of the Great War Veterans' Association of Canada.

"May I add one more word,—for four long years you never forgot the great Cause on which you set forth, the great objective of the Allies—today there is the greatest need the world has ever known for the citizens to carry on, to stand firm. Men and women look at the example set during those long years by the men in khaki, fix your minds on some objective, some high principle, and like our boys move on day by day, year by year never losing sight of the principle, the objective on which you are bent.

"Again thanking you on behalf of the citizens for the services rendered and personally for the honor and privilege of speaking these few words to you tonight."

A Buffalo coal dealer was fined \$150 for selling a ton of coal 443 pounds short. 37-1t

SALVATION ARMY MEETINGS BROKEN UP BY JAPS

TOKIO, Nov. 15.—Anti-Christian mobs twice broke up Salvation Army jubilee celebrations here yesterday. Gangs of students dispersed an open air gathering, while a mob invaded an indoor meeting, tore down the decorations and silenced the speakers. Officials of the Salvation Army declare they believe the disturbances were fomented by Buddhists.—Calgary Herald.

U. F. A. MACLEOD BRANCH IS OPTIMISTIC OF FUTURE

A general meeting of the U.F.A., Macleod branch, was held in the company's office on Saturday, November 13th. The meeting was well attended by members from the surrounding district who were all prepared for business and ready to discuss the Association's business, which was fully explained by the president, W. Shield, and their secretary. After considerable discussion in which all took part, and it was found that the business was in as fair a condition as the times would warrant, and the crop reports, that they passed the following resolution, which was moved by John Mahoney and seconded by Hugh McIntosh, "That it is the opinion of this meeting, there is nothing in the financial situation of the Association to necessitate the closing out of the business, and that an effort should be made to clear off the present liabilities, and reorganize the business along lines, and with the object in view, that members and others be urged to assist by subscribing new share capital."

COUNCIL MAY MAKE INCREASE IN POWER RATE TO MILL

Minutes of the regular meeting of the Town Council held in the Town office on the evening of November 13th, 1920.

Present: Mayor Fawcett and councillors Morris, McNichol, Muldoon and Gardiner.

Gardiner-Morris—That the minutes of November 1st as read be adopted.—Carried.

Engineer instructed to order new wheel for hose wagon.

Application for rebate of taxes under the Soldier's Home Act laid over till next meeting.

McNichol-Morris—That the public school be paid the sum of \$1600 for November salaries, etc.—Carried.

McNichol-Morris—That the accounts as read by the Financial committee be paid.—Carried.

Gardiner-Morris—That four copies of the paper advertising the Tax Sale be posted up in place of four typewritten copies.—Carried.

In the matter of supplying power to the local flour mill the following correspondence was read:

Randall, Gee and Mitchell, Ltd., 706-708 Lancaster Bldg. Calgary. To Mr. E. Forster Brown, Sec-treas. Town of Macleod.

Dear Sir:—We are in receipt of your letter of Nov. 2nd re power rates to our mill at Macleod. We beg to advise that this mill has now been re-organized and is going to operate under the name of Midland Mills, Ltd., and that we should like to know from you at your earliest convenience, what you are prepared to supply power to us for.

We understand from Mr. Randall that there has been some discussion about the rates, and as soon as we can get a definite proposition from you, will know whether we will be able to use your power or not.

We hope you will not fail to consider the protection and advantages that other towns give to industries of this kind, namely in your district, Medicine Hat and Lethbridge.

We would like as stated above, to have you make us your best offer at your earliest convenience, as we want to have our engineers figure on other power if your rates are prohibitive.

Yours truly,

Midland Mills, Ltd.

In reference to this matter City Engineer Pearson submitted the following statement:

Gentlemen:—In anticipation of a discussion of the Power rate for the Midland Mills, Ltd. for 1921, I have prepared the following statement:

To get a perspective of this matter it is necessary to go back to the time when the town first supplied power to the mill. At that time the town was running a Generating Unit of more than double the capacity required by the ordinary requirements of the town. Natural gas was used as fuel by the boilers, and at that time cost only 17 cents per thousand cubic feet. When the mill required power all that was necessary was to turn on three or four burners and the power was available forthwith, later when gas was not available in the winter and steam coal was used, a good grade of coal was available at \$3.50 per ton, today, a much poorer grade of coal costs \$8.00 per ton, and were the town compelled to buy this grade of coal, our total revenue from the utilities would scarcely pay the fuel bill. In view of the following facts that we do not now run a unit any larger than the towns require-

HYMANS, OF BELGIUM, ELECTED PRESIDENT OF NATIONS' LEAGUE

GENEVA, Nov. 15.—Paul Hymans, of Belgium, was elected president of the league at its first session here today. He received 36 out of 41 votes. M. Hymans is a former foreign minister of Belgium, and head of the Belgium delegation in the assembly of the league.—Calgary Herald.

GUN MAN SHOT THREE POLICE OFFICERS

WINNIPEG, Nov. 11.—Alex. McCurdy, provincial morality officer, died at 8.15 this morning as the result of a shot fired by a man registered as John Brown, at the Stockyards Hotel, St. Boniface, on which a raid was being made in search of liquor. After shooting McCurdy and two other officers, Jack Dineen and James Uttley, the gunman made a complete getaway.

He is described as tall, dark, clean-shaven, and about 45 years old. John Brown is not accepted in police circles as other than a fictitious name. There have been as yet no arrests.

Dineen and Uttley are both seriously wounded but may recover. The gunman is believed by the police to be a member of a gang of ruffians that have committed murderous robberies recently, notably the Union Bank at Winkler, Man.

Inspector McCurdy was leading his men. He entered a room. A shot rang out and a moment later a man carrying a smoking revolver emerged. He opened fire on the rest of the raiding party and wounded Dineen and Uttley.

Constable Fred Causy, the fourth member of the party, had a narrow escape when the gunman rushed at him and fired point blank, the bullet missing him by inches.

In the confusion which followed men and women fled from the hotel. The woman who was registered with the slayer disappeared and the roundup of the occupants of the hotel rooms netted the police only five prisoners. They were taken to the St. Boniface jail as material witnesses.—Calgary Herald.

Mary Miles Minter, Realartist, in her latest photo-drama, "Jenny Be Good," leaves a trail of corn for her lover to follow. The birds thought it was intended for them and proceeded to follow the trail much to the amusement of the audience, but to the discomfort of Jenny.

For a really enjoyable evening see Mary Miles Minter in "Jenny Be Good" at the Empress theatre on Monday and Tuesday.

Windsor, Ont., has a population of 37,170.

ments, that natural gas is not available for the boilers, and that the present price of steam coal is prohibitive. I submit that the town should no longer undertake to supply power in any such quantities as required by the Midland Mills. As further evidence I submit the following figures representing one week's run of days only in the early part of this month. During this week we were forced to use steam coal as fuel:

Value of coal consumed during week \$280.00
Value of coal ordinarily consumed per week 50.60

Amount paid by the mills \$230.00

Amount money lost due to mill \$170.00

I wish it to be understood that the mill does not consume this difference, they simply force us from a cheap to an expensive method of producing current, that if we continue to supply this power that we will lose a considerable amount of money annually. I therefore recommend that the council advise the Milling company, that due to conditions prevailing we cannot fill their power requirements, after the expiration of their present agreement.

Respectfully submitted,

Vernon Pearson.

In the above connection councillor McNichol and city engineer Pearson were appointed a committee to take the matter up with the Midland Mills with a view to coming to an equitable arrangement if possible.

City engineer Pearson reported that the old Leonard engine and generator recently removed from the Power House has been disposed of for the sum of \$2250.

Fawcett-Gardiner—That agreements for sale of certain lots be cancelled and the taxes be written off, equity in same having been relinquished.

Fawcett-Gardiner—That transfer of certain lands be accepted from G. H. Scougall in lieu of taxes thereon, and that the taxes be written off.

By-law No. 357 appointing E. Forster Brown returning officer for the Town of Macleod after first, second and third reading was duly passed.

Morris-McNichol—That the Returning Officer be instructed to call for nominations and election of the following: Mayor, 3 councillors, 3 public school trustees, 2 separate school trustees.—Carried.

Council then adjourned.

MONEY THOUGHT TO LIE SAFE AT THE BOTTOM OF ATLANTIC

MARSAILLES, Nov. 15. — When the steamer Afrique of the Carageurs Reunis line sank in the Bay of Biscay, last January, with frightful loss of life, it was incidentally mentioned that she carried 15,000,000 francs in new bills destined to the Banque Francaise Afrique Occidentale at Dakar. Seven hundred thousand francs in new bills, which the police have identified as belonging to the Afrique shipment and which were supposed to be resting on the bottom of the sea, were, however, seized yesterday, when Jules Carassy, an automobile dealer, was arrested in this city.

Carassy was about to board a train for Paris when police officers invited him to accompany them to the station. In a suitcase, he carried, were 700,000 francs in new bills, the numbers on which were consecutive and tallied with records of a shipment to the Dakar Bank on board the Afrique. It is asserted by the police that a case of 1,000,000 francs was stolen before the ship left her docks.—Calgary Herald.

AGRICULTURAL SOCIETY HOLDS DIRECTORS' MEETING

Macleod, Nov. 10th, 1920.

A meeting of directors was held in the Town Hall on the above date, Mr. Mackintosh in the chair. Present: Messrs. Leather, Brown, Hammersley, Lantinga, Grier, Horner, Wilkinson, Hewson and Mercer.

The secretary read the minutes of the meeting held on August 14, which were duly adopted.

A letter was read from the Seed branch of the Department of Agriculture re holding Seed fair.

Leather-Brown—That no seed fair be held.—Carried.

The secretary-treasurer presented a provisional report of the fair held in August. The report showed a deficit of over \$300. After a lengthy discussion on possible ways and means of raising money to clear off this deficit, the directors came to the conclusion that under present conditions it would simply be impossible to raise that amount by subscription of otherwise. The following resolution was unanimously passed as the only solution to the difficulty under existing crop conditions.

Horner-Hammersley—That the exhibitors be asked to donate to the Society the 25 per cent. held over on their prizes, and thus help to clear off part of the deficit, and that a letter be sent to all the exhibitors explaining the financial position of the Society.—Carried.

In connection with the above the following resolution was also passed: Leather-Hewson—That a committee of Messrs. Hammersley and Mackintosh wait on the Town council to ask for a grant to cover the amount expended by the Society on the grounds and buildings this year.—Carried.

Horner-Grier—That the annual meeting be held on December 11th in the Town Hall.—Carried.

Meeting then adjourned.

In connection with the above report the secretary informs us that the above deficit is caused principally by large increase in the amount paid in prizes and higher costs this year of general expenses—these being on a par with generally higher costs in every line in 1920.

ROYAL NORTH WEST POLICE VETERANS' ASS'N.

About one year ago, a division of the Royal North West Mounted Police Veterans' Association, was formed in Edmonton. We started out with some 26 members. When the annual meeting of the Association was held in the month of September at Vancouver, which place for some years past has been the headquarters of the Association, it was found that the headquarters of this division was the strongest division, with the result that the headquarters of the Association was transferred to Edmonton. Headquarters Executive here are asking that all ex-members of the Force join the association, as only by strength and mutual co-operation can anything be obtained in the matter of recognition of past services by ex-members of the Force.

The Association is endeavoring to obtain a re-adjustment of the pensions that are paid to old members of the Force, as the pensions that they are getting are very strongly old rating of pay, and are entirely inadequate in these times.

Any ex-Mountie wishing information should communicate with the Headquarters Secretary.

P. H. TUCKER,
Old Parliament Bldgs.,
Edmonton.

SUBSCRIBERS PAYING FOR THE TIMES DURING THE WEEK

Following are the names of those paying subscriptions to The Times during the past week:

J. S. Toogood, Macleod; D. M. Ross, Macleod.

THE PROVINCIAL HIGH SCHOOL DEBATING LEAGUE

The Provincial High School Debating League of Alberta has been re-organized for the current year by the Department of Extension, University of Alberta. Twenty-one schools in all have entered, including: Crescent Heights High School, Calgary; Cardston High School; Camrose High School, Didsbury High School, Separate High School, Edmonton; MacDougall High School, Edmonton; Victoria High School, Edmonton; Strathcona High School; High River High School, Lethbridge High School, Lacombe High School, Macleod High School, Medicine Hat High School, Ponoka High School, Red Deer High School, Viking High School, Vegreville High School, Vermilion High School, Wainwright High School, Wetaskiwin High School, and Woolford High School.

Owing to a feeling that smaller schools should not compete with the large city schools, the League has been divided into two groups, known respectively as A and B. The A group contains the High schools of the incorporated cities, while the B group contains the other High schools entering. The schedule has been drawn up and appears below. Only the dates for the preliminary debates are given. The others will be arranged to follow the new year, and will be announced in good time. The A division is organized in two groups: the Southern and Northern; the B division in three groups: Southern, Central and Northern. The schedule is as follows:

A Division.

Southern Group
Lethbridge, Medicine Hat, Crescent Heights (Calgary.)

1. Medicine Hat vs. Lethbridge, Friday, December 3, 1920.

2. Winner No. 1 vs. Crescent Heights.

Northern Group
1. Red Deer vs. Wetaskiwin, Friday, December 3, 1920.

2. Edmonton Separate High vs. Red Deer.

3. Victoria High vs. Strathcona High, Friday, December 3.

4. Winner No. 2 vs. Winner No. 3.

5. Winner No. 4 vs. Winner No. 1.

Finals.—University of Alberta
Winners, Southern Division, vs. Winners, Northern Division.

B Division.

Southern Group
1. Woolford vs. Cardston, Wednesday, December 1.

2. High River vs. Macleod, Thursday, December 2.

3. Winners No. 1 vs. Winners No. 2.

Central Group
1. Didsbury vs. Lacombe, Friday, December 10.

2. Camrose vs. Ponoka, Friday, December 10.

3. Winners No. 1 vs. Winners No. 2.

Northern Group
1. Viking vs. Wainwright, Friday, December 3.

2. Vermilion vs. Vegreville, Friday, December 3.

3. Winners No. 1 vs. Winners No. 2.

Semi-Finals
Winners, Central Group, vs. Winners, Northern Group.

Finals
Winners, Southern Group, vs. Winners, Semi-finals.

LADIES' HOSPITAL AID DANCE WAS HIGHLY SUCCESSFUL

The Ladies Hospital Aid Dance held in the Veterans' Hall on Tuesday night last was an exceedingly pleasant affair. As a social function it was without peer and was profitable to the Hospital Funds to the extent of \$165.00. The Veterans kindly donated the use of their hall for the good of the laudable cause. The ladies of the society promise more of these pleasurable affairs to follow during the coming winter.

"The bigger they are the harder they fall." In "Sooner or Later" Owen Moore was the biggest "woman hater" that ever lived—and he fell most mighty hard when the right girl came along.

MACLEOD MARKETS

Below are given grain and produce market prices in Macleod, the grain quotations are those current up to 3 o'clock on Thursday of each week, and produce markets are Thursday morning's quotations each week:

Grain
Wheat, No. 1 Northern \$1.57
Wheat, No. 2 Northern 1.54
Oats38
Barley64
Rye 1.15
Wheat, track prices 2.00 1/2
Flax 1.91

Produce
(Quotations by courtesy of J. Sanderson, manager P. Burns Meat Market, Macleod.)

Beef, live \$.04—\$.06
Hogs, live, select 16—18
Hogs, dressed 23—25
Veal, dressed 12—14
Mutton, dressed 16—18
Poultry, live 17—20
Poultry, dressed 20—25
Eggs85
Butter 50

Nothing Like Internal Bathing for Constipation

If people only knew what Internal Bathing is doing for thousands of others there would be fewer pills and laxatives swallowed, and very much less suffering from Constipation and the accompanying Stomach and Nervous troubles resulting from it.

J. A. Darrach, Copper Cliff, Ont. writes: "I have been using your J. B. L. Cascade for the past three months, and am convinced that it is the most modern and scientific method of dealing with constipation that has ever been devised, and I will lose no opportunity to promote its use among my friends, as I can speak truthfully and enthusiastically as to its merits."

By the proper application of Nature's cure, warm water, by means of the J. B. L. Cascade, the lower intestines are kept free from all poisonous waste. Drugs force nature. Internal bathing assists her.

Dr. Chas. A. Tyrrell, of New York, a specialist on Internal Bathing, invented and perfected the J. B. L. Cascade, which has done more during the past 20 years in restoring health and lessening disease than all other means combined.

Ask A. D. Ferguson, Druggist, Macleod, Alta., for booklet "Why Man of Today is Only 50 per cent. Efficient." He will also be pleased to show and explain the J. B. L. Cascade to you, or write to Tyrrell's Hygienic Institute, 163 College Street, Toronto.

BULBS

Hyacinth, Daffodil, Narcissus, Tulips and Chinese Lily Bulbs on sale at
K.A.Y. Realty Co.

Leave Orders for Cut Flowers

LOCAL AND PERSONAL

"An apple a day keeps the doctor away"
Is a saying both true and true; An onion a day also keeps him away, And your friends and acquaintances too.

Mrs. A. D. Ferguson entertained at cards last Saturday.

Mrs. H. M. Smith was hostess at a card party on Wednesday last.

Born—Sunday, Nov. 7th, at Macleod Hospital, to Mr. and Mrs. George Hutton (Spring Point) a son.

Dr. and Mrs. Alan Kennedy attended a military ball given at Calgary.

on Armistice Day.

G. E. Vrooman, of Pincher Creek, was a business visitor in Macleod on Wednesday.

Jack Black, of Waterton Lakes, has been visiting friends in Macleod for the past two weeks on his way to Banff.

F. A. Adams, manager of the Co-operative Garage, motored to Brooks, Alta., on business on Tuesday this week.

Curran Grier says at the Grier ranch they are busy plowing—no frost in the ground—petty good—Sunny Southern Alberta.

Word received from Flight Lieutenant R. E. Barnes at Camp Borden is to the effect that he is enjoying the higher altitudes daily.

It is rumored among local sports that Mr. E. Ringland is going to favor us with one of his much appreciated skating rinks this year.

Messrs. Roy and Frank Grier, of Calgary, were business visitors to Macleod during the past week, and while here were guests of Mr. and Mrs. D. J. Grier.

At the invitation of the U.F.W.A. Mrs. O. C. Edwards left on Monday to lecture at Red Deer, Black Falls, Stettler, Alex, Halkirk, Progression and Bentley.

It is noted that at the recent convention of Alberta Union of Municipalities held at Lethbridge, E. Forster Brown, of Macleod, was appointed a member of the executive committee of the Union.

On Armistice Day the Macleod Great War Veterans' moved the Macleod's war trophies (guns) to the Court House Square, placing one on each side of the walk approaching the building from the front.

Mrs. A. D. Ferguson lately returned to her home in Macleod from a holiday trip spent in the east. Mrs. Palmer Lindsay, of Winnipeg, a sister of Mrs. Ferguson accompanied her on her return and is the guest of Mr. and Mrs. Ferguson.

It is stated from an authoritative source that there is no foundation to persistent local reports that the Peuchen interests (including the mill at Macleod) had been sold to an American investor—the report originated in the fact that an American did make an offer for the property, but the holding company refused to sell.

H. W. Bright, who is a director in the Alberta Association of Municipal Districts, and R. B. McNab and T. F. Bailey as delegates from Bright Municipality, will leave on Saturday to attend the annual convention of the association which will be held in Calgary next Monday, Tuesday and Wednesday. Mrs. Bright accompanies her husband on the trip.

Phone 91—If the local news in which you are interested does not appear in The Times it is by reason of knowledge of it having failed to reach this paper. It is a favor to us to be informed of news items—card parties—visitors to your home—journeys you may make out of town, etc.—Phone these items in and oblige The Times.

On Monday of this week in the District Court Judge's Criminal Court, Judge McNeil presiding, L. W. Minor of near Stavely came up for trial on the charge of the theft of a cow from H. P. Streeter, a stock man of near Stavely, the alleged crime said to have been committed the 10th of Nov. 1919. There are two other charges pending—allegation being that accused also stole stock from W. H. Carbine and from J. S. Brown, both of Stavely district. The trial of the first case is still in progress, the other cases to follow. J. W. McDonald, K.C., and R. B. Bennett, K.C., Calgary, associating in the prosecution and Barristers McKinley Cameron (Calgary) and G. A. McGill Nanton, associating in the defence.

A meeting of the provincial Executive Committee of the National Council of Women was held in Calgary Nov. 11th, presided over by Mrs. O. C. Edwards, provincial vice-president. Delegates from the various local Councils of the province, the W.C.T.U. and the Women's Institutes were present. Mrs. Peterson and Mrs. Robert Gardiner represented Macleod. Among the subjects discussed were "The need of an Industrial Home for Boys and Girls," adequate care of the needy poor, detention home for women of incorrigible evil habits, government custodial care of feeble minded women of child bearing age. Arrangements were made for a deputation to wait upon the government to lay before them the resolutions passed at the meeting.

In the matter of "Business Paragraphs" appearing in The Times in connection with local advertisements: These paragraphs are a part of The Times management's verbal agreement with contract and other local advertisers. Any local advertiser is entitled to one of these short paragraphs—the same carrying the privilege of change each time the display advertisement is changed. Patrons are supposed to write these paragraphs or dictate such—in event of their failure to do so the manager of this paper assumes the duty. The point in explaining the origin of these paragraphs is that misapprehension has arisen in some quarters regarding them—the manager of the paper being supposed to be the author of all—each and sundry and to have shown favoritism in the writing—the logical answer to this is: Take an interest in these helps to business and write them or dictate them, so ensuring yourself satisfaction and relieving the management of the paper of the onus of partisan intent. In view of the foregoing explanation each advertiser patron will doubtless admit it to be his own fault if his business paragraph does not meet with his approval.

GENERAL ANNUAL HOSPITAL MEETING ELECTS DIRECTORS

At the general annual hospital meeting held last Tuesday night officers and directors for the ensuing year were elected as follows:

Pres., J. D. Matheson; Vice-Pres., Rev. W. A. Lewis; Secretary, R. D. McNay; Directors: J. L. Fawcett, A. T. Leather, E. Forster Brown, H. M. Smith, A. D. Ferguson, Rev. J. Kennedy, R. T. McNichol, F. Morris, J. E. Gardiner, C. W. Stevens, A. F. Grady, J. W. Moreash, Rev. Mr. Merriek, Father Osborne, C. A. Mercer and W. Embrey.

Brown-Gardiner—That a vote of appreciation be tendered retiring President A. T. Leather and Secretary McNay for their efficient efforts on

behalf of the hospital during the past year.—Carried.

The new board of directors at once proceeded to business as follows:

McNichol-Grady—That E. Forster Brown, J. W. Moreash and F. Morris be appointed to constitute the finance committee.—Carried.

Brown-Gardiner—That J. D. Matheson, R. T. McNichol and R. D. McNay be appointed as purchasing committee.—Carried.

Routine business, including adoption of previous minutes.

Lewis-Gardiner—That a vote of thanks be tendered to the Ladies' Hospital Aid for donation of \$200 in October and for general assistance during the past year.—Carried.

Payment of accounts as passed by the finance committee was authorized.

McNichol-Lewis—That books be balanced to the end of October, 1920, and that new fiscal year start from that date; also that annual meeting be held on the second Monday in November each year.—Carried.

Adjournment.

TO MOTHERS AND FATHERS:---

Tradition says that experience is the champion school teacher of the world, yet how many people ever profit by the experience of others. Have you, fathers and mothers, ever given your children the benefit of your experience in life?

In a few days a play will be presented in Macleod which should interest the citizens in this community. There are hundreds of fathers and mothers in this city who should send their children, their sons and daughters, all ignorant of the snares and pitfalls of life, to see this play.

This play, "Experience," is the Eternal, Never-dying story of Youth, His Early Struggles, His Venture into the Great World to seek fame and fortune, his trials and temptations, his triumph over evil and wickedness through the everlasting influence of a woman's love; just the sort of experience that YOUR boy may be about to endure.

"Experience" teaches a great moral lesson. It has been endorsed by clergymen of all denominations, wherever presented. It has a wonderful effect upon the audience because it points out to every man, woman and child the evils of a life of pleasure upon the Primrose path, and brings home to every heart the old, old story that the Straight and Narrow Path alone is the Road to Happiness.

The play is presented in ten scenes by a company of forty people, and comes here after a phenomenal engagement of nine months in New York, seven months in Chicago and five months in Boston. It comes to the Empress Theatre for One Night Only, THURSDAY, NOV. 25th. Seats on sale Saturday at Ferguson's Drug Store. Prices: \$1.00, \$1.50, \$2.00.

GUARD AGAINST CHILLS

Simple Precaution Against Dangers of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, or soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.

THE PROGRESS OF THE TABER IRRIGATION PROJECT

An address by Lawrence Peterson at the thirteenth annual convention of the Western Canada Irrigation Association at Medicine Hat, Alta.

It is expecting quite a little bit to have a farmer stand up here and think and talk at the same time. Especially if the little story I heard about the farmer the other day is true. I heard that in the early settlement of Western Canada a book agent dropped in on a farmer with the desire of benefitting the farmer in a mental way. In order to lay a foundation for the sale of his book, he asked the farmer what he did in the winter evenings. The agent said: "I know that in summer time after your day in the field and looking after the horses and other things is done it would run you up to bed time, but in the winter when there is so much time to spare after dark, say from four or five in the afternoon, how do you spend your evenings?" The farmer said, "Well lots of the time I set and think but most of the time I just set."

If that was true with the farmer in the early settlement of the west he has had quite a bit to overcome, but I believe he has arrived at the stage where he does considerable thinking.

When I first received the invitation to speak on the progress of the Taber Irrigation District I was a little reluctant about accepting it, because three months ago we had not made any visible progress. We had spent some six or seven years' labor in securing an irrigation system, but since that time we have been making history. This Taber Irrigation District is the first one to be established under the Provincial Irrigation District Act of Alberta, and in the last few months while we have not received any amount of water to assist us in our distressed condition during the summer, we have received a mental relief that has gone a long way to make our settlers in the Barnwell and Taber districts satisfied and willing to stay on the land and make a success of it. It has brought, as it were, succor to our souls, and that reminds me of another story in which the Minister was in the habit of praying upon the Sabbath day and thanking the Lord for those things which he had received in his family during the past week, and some of its members, who were not in the habit of attending church regularly, conceived the idea that it would be a good idea to collect a quantity of fuel, which they did, and send it over to the minister's house. That same week there was born to the minister's home a baby, and on the Sabbath Day the boys were talking and wondering which of the two blessings the minister would mention in his prayer. When the minister rose, he began something like this, "I thank Thee Lord for the timely succor I have received in the past week." So we in the Barnwell district have offered many a prayer for the succor we have received—not that we have been relieved in a financial way or with our crops, but we are in that land and class of people that the Hon. Duncan Marshall has made reference to time and time again and I believe he will be famous for that statement. He said, he was not so much concerned about getting new people on the farms, as he was in holding the people on to the land that were already there. I maintain that irrigation is absolutely necessary in the South portion of the province in order to accomplish this fact.

When I received the invitation to speak on this subject, as I said before, I rather felt that if the subject had been changed to a talk on the obstacles of the Taber Irrigation District, I would have been a fund of information to present to you. There have been many obstacles and we have taken them up and attended to them from time to time and our hopes have gone to a low ebb and then rose again. At the present time we are in contact with the C.P.R. to supply the Taber Irrigation District, consisting of 17,000 acres of land. The cost of construction of this system to the farmer is \$16 per acre with a water rental of 50 cents per acre at the headgate. Those that have gone into the Irrigation Act will understand that it is the first move in Alberta to place the irrigation system in the hands of the farmers.

In reading some of the reports of the previous conventions, I was much interested in seeing the report of Mr. Peters, of the Irrigation Department

of the Dominion. He handled the question as to whether it was more advisable to have the irrigation system completed before the district was settled or have settlement precede the irrigation system or district rather. Now, there are advantages, I think, on either side. It was brought up in his paper that where companies went forth and at great expense established a system of irrigation and sent out pamphlets then to bring settlers from different parts of the country where conditions were different and the climate was different, and the dissatisfaction arose, and they were not prepared and willing to make the best of the opportunities under which they were placed; while on the other hand, if settlers preceded the irrigation system and if it was a project of the farmers themselves, they would be prepared to accept the results of their own labors and would be more interested in it. Now, while they are doing that, I think it is very necessary to consider that that system must not be delayed beyond a reasonable time. In connection with the Taber Irrigation District, it is a continuation of the Lethbridge-Coaldale system. But, it is waste waters and waters that can be run into the Chin reservoir during a period when it is not in use by the people in the western districts. It is accumulated in a reservoir 18 miles long and varies in width from half a mile or more. It is capable of storing sufficient water when filled to supply the district with irrigation for one season.

When the people first located in those districts—and I might say that irrigation is not new to most people in this district, many of the people were pioneers in irrigation, many of them lived and operated irrigation farms all their lives and I feel myself that I would give a better account of myself if I was given a piece of corn or alfalfa to irrigate than to try to present the subject of irrigation before you—those people in their first settlement were so anxious to make use of irrigation that they went to work and constructed a ditch in 1907 for the purpose of bringing water down to Chin coulee, but soon after building the ditch they wrote to Ottawa for the rights and it was given to them with the condition that the people would be entitled to the water if the A.R. and I company, operating the system to the west, did not lay claim to it later on. There were school lands of some 10,000 acres in one block which had been moved out of irrigated lands further west. The school lands sale came on and these lands were settled and as they became settled the people who built the ditch, had no law to operate it and the ones at the head of the ditch used the water. We were very willing then to have the A.R. and I make arrangements for building the system whereby this water would be available for the people in the district. A committee was chosen in 1913 to interview the C.P.R. management. In that interview we came to some understanding with the C.P.R. who were willing to go ahead with the building of the system. It would cost \$10.00 an acre to the farmers and a 50 cents an acre rental at the head gate and the system would be turned over to the farmers for use and distribution of water.

This was satisfactory to the committee and we reported it to the people. The \$10.00 an acre for construction was to be had by an individual mortgage placed on the lands of people in the district. The people went about getting the mortgages and were successful where there were residents, but the school lands that had been sold were sold on time payments by the government and were at the head of our system and when it came to the giving of a mortgage on the land, they were not allowed

REACH & CO. Cash or Trade

We are going to spring a surprise to many. The past three years have been very bad for us and last year showed a heavy loss, our collections have been Nil. A great proportion put off paying their bills till a more convenient day. The consequence is that they are worse off than before, and owe more.

We think the only solution is to sell out and in the meantime do a cash business. Parties with a monthly account will pay up promptly on the first of next month, with three days grace.

Farmers accounts should be met by produce: Butter, Eggs, Poultry and Vegetables. It is a mistake in this country to depend upon wheat or any other grain to pay their yearly bills. It is a gambling proposition, they have to take chances on drought, hail, wind, drifting soil, cut worms and weeds, including the Russian thistle. Without irrigation there is no certainty of a crop, otherwise it is not suitable for mixed farming, the rainfall is too uncertain.

We are at the end of our financial tether and to continue giving further credit is simply suicidal. The Hudson's Bay Co. have sold out, we can't take advantage of their doing so by putting in a larger stock. We have no money or credit owing to the apathy and in many cases the dishonest indifference of others who owe us. Our conscience is clear in our past dealings with you, ask yourselves if yours is equally so.

REACH & CO.

ANNOUNCEMENT

TO THE CITIZENS OF MACLEOD AND DISTRICT, I WISH TO ANNOUNCE THAT I HAVE OPENED UP-TO-DATE UNDERTAKING PARLORS in the LYSAGHT BLOCK AND HAVE APPOINTED THE K.A.Y. REALTY CO. AS MY AGENTS. ANY CALLS LEFT WITH MR. ARTHUR YOUNG WILL RECEIVE PROMPT ATTENTION.

to do it as a first lien on the land and it therefore was not practicable. We thought then we could overcome it by erecting into a district and I think it was through the Taber Irrigation District that the Irrigation Act was passed. The school lands still caused delay. The Dominion government would not allow a mortgage to be placed on those lands. The C.P.R. became discouraged with this after surveying the land and paying their engineers for this work. It was at this particular period that the Department, represented by Mr. Peters, came to the assistance of the District and made the survey to the east, running six miles to the east of Taber to take the place of the lands to the west or at the head of our system. After waiting for some time and erecting ourselves under the Irrigation Act, we of course thought we were going to have the water immediately, but it seemed one delay after another came until the war came and the cost of material and labor and everything rose and construction was delayed. I should mention, however, that when the district was extended to the east in place of the lands to the west that an additional cost of \$1.50 per acre for construction was added. This, (Continued on Page Six.)

OIL ROYALTIES

Revival of interest in oil and other
mineral development in this and other
provinces of the Dominion brings
up the question of natural resources
and the rights of the people pertaining
thereto.

We know that in times past gov-
ernments have been foolishly free
with their mineral and other con-
cessions to private interests. The
result has been that tremendous nat-
ural resources have been disposed of
with but meagre return. If indeed,
any return at all to the state. That
treatment of the natural wealth of
the country may seem good to the
practical politician but it does not
meet with the approval of the general
public.

But quite as bad in the opposite
direction is the contention that the
state should demand from those
whom it allows to develop our min-
eral and other resources, so large a
proportion of the returns that private
interests will decline to take the
speculative development venture.
Somewhere between these two ex-
tremes lies the reasonable course and
it should be the business of the gov-
ernment to discover this course and
follow it in all its agreements cov-
ering our natural resources.

Men and companies engaged in
exploration and development of oil
and precious metal deposits are en-
titled to something good if their ven-
ture turns out successfully. They
are doing great service for the coun-
try in disclosing its natural wealth
and bringing it into the world's mar-
ket. If they fail, the state loses nothing;
if they succeed, the state is bound to
profit, at any rate indirectly. But there
should be direct profit as well—a fair
division of profit.

This matter is of importance at the
moment because of recent oil dis-
coveries in the far north. We are
advised by experts that we may be
on the verge of the world's greatest
oil discovery. Already scores of pros-
pectors are preparing to enter the
north country and next spring will
probably see a regular Klondyke rush
northward. Now is the time for the
Dominion government to revise its
mineral development regulations. If
the geologists are right, there will be
plenty of profit for the prospectors
after the state has taken its fair
share. It would be good business to
pay a large slice of our war debt
out of oil royalties.—Calgary Herald.

ALBERTA STEERS FOR INTERNATIONAL EXPOSITION

The exhibit of pure bred steers
from the College of Agriculture of
the University of Alberta destined for
Chicago and Guelph, is leaving this
week on the long trip eastward. It
will be in charge of the college herds-
man, J. Johnstone, and with him will
go five of the final year students who
are specializing in Animal Husbandry:
J. G. Clark of Irma, Hector McArthur
of Knee Hill Valley, Ernie Bucking-
ham of Claresholm, A. P. Hunter of
Innisfail, and J. E. Meagher of Yon-
ker, Saskatchewan. These young men
are taking the trip as part of their
training in live stock work, and since
they are all shortly to be managing
farms of their own, the educational
value of the trip cannot be overes-
timated. The exhibit should reach
Chicago in less than seven days and
will then be finally fitted for the
International Exposition.

These steers are not being sent with
the idea of prize winning, but rather
as a group exhibit of what can be done
in Alberta with good cattle, fed prop-
erly. Coming from a part of the
country as yet comparatively little
known, this exhibit should be of inter-
est at the International even if none
of the animals get into the money.

From Chicago the steers will be
sent to Guelph, this at the request of
Ontario breeders who visited the Uni-
versity during the past summer. After
the fair at Guelph, the steers will be
brought back to Edmonton and sold
in the spring. While bringing back
entails expense, it was thought that
the breeders who contributed these

steers to the University should have
them exhibited at home as well.

The exhibit consists of six Here-
fords contributed by: the Curtis Cat-
tle Company of Shepherd, F. M. Mace
of High River, Frank Collicut of High
River, Pym Brothers of Mirror, John
Davidson of Coaldale, John Wilson of
Innisfail, and Vernon Smith of Cam-
rose. Also four Aberdeen Angus
steers donated by: Art Noad of Olds,
J. Richardson of Bowden, C. Ellet of
Sandy Lake, and the Canada Land and
Irrigation Company of Medicine Hat.
There will be two shorthorns sent,
one donated by the Hon. Duncan Mar-
shall, and the other by the University
of Alberta. It will be remembered
that these steers, as young calves,
were given to the University and were
taken care of by the College of Agri-
culture for the purpose of exhibit-
ing later on as a direct advertisement
for the Province, for the breeders,
for the breeds themselves, and inci-
dentally for the institution exhibiting
them.—University of Alberta Press
Bulletin.

DOG-TEAMING TO NORTHERN OIL FIELDS

EDMONTON, Nov. 15.—Tony Neis,
a well-known and experienced trader
and explorer in the north, will be the
first adventurer to get under way for
a winter trip to the Mackenzie River
oil fields. He has three big dog
teams ready. The fact that Fort
Norman is a long way off and will
mean hard travelling has not dis-
couraged Mr. Neis in his plans for an
overland journey this winter, for from
past experience he knows exactly
what is ahead of him.—Calgary Her-
ald.

WANTED: A WIFE

BOX 17—ROARING RIVER. RICH YOUNG MAN OWN-
ING A SILVER MINE WITH AN ELEGANT HOME OV-
ERLOOKING A BEAUTIFUL RIVER, WISHES TO COR-
RESPOND WITH AN INTELLIGENT YOUNG LADY.
OBJECT MATRIMONY.

LADIES! BEWARE OF THIS ADVERTISEMENT.

Ladies using these columns to find
a desirable mate, are warned to ig-
nore any advertisements bearing Box
No. 17, Roaring River. We are in
receipt of a letter from a Miss Fred-
erick in which she complains of a
most harrowing experience as a re-
sult of having answered this ad.

Miss Frederick's letter, bearing the
Roaring River post-mark, states that
she is now at the man's home await-
ing his return from a hunting trip.
She avers that the "elegant home"
which he pictured in his advertise-
ment is a myth. Instead, she says,
he lives in a squalid hut located in the
heart of a wild mountainous region
and bordering close on the Roaring
River. During his absence, she has
made extensive inquiry among the
inhabitants of a local village, regard-

ing his character and the reports she
has heard have been extremely un-
favorable and disquieting. In order to
be fully protected, Miss Frederick
has secured a gun and is awaiting
with considerable apprehension. Accord-
ing to her letter, she has often been
tempted to turn back but has neither
the funds nor the courage to take the
step.

In view of Miss Frederick's expe-
rience, we trust that you will heed our
advice and refrain from entering into
communication with the gentleman
from Roaring River. We fear that
this ad makes a treacherous plot and
are waiting anxiously to learn the
outcome of Miss Frederick's expe-
rience, which will be shown at the
Empress on Friday and Saturday.

Business Paragraphs

R. L. Hackett announces two auc-
tions—read these announcements
carefully—dates: Monday, Nov. 22nd
and Wednesday, Nov. 24th.

Go to the pioneer blacksmith shop
for prompt and efficient work. Most
up to date shop in Southern Alberta—
Alex. McLeod, proprietor.

For all kinds of building and con-
tracting—general carpenter work—
go to C. W. Stevens, 24th St., oppo-
site Times Office.

Best equipment and Service—The
Silver Grill.

J. P. Rankin, barber—Razors honed
and ground.

Meals, smokes, ice cream, rooms
at the Palace Cafe.

Wawanesa Mutual Insurance Co.—
See Geo. Scougall's announcement.

Children's School Hats—Get them
from Miss A. M. Wilson, Milliner.

Templeton's Rheumatic Capsules
will cure rheumatism. A. D. Fergus-
son.

The Christmas Gift with the per-
sonal touch—Your Photograph—White-
foot Photo Service.

List your lands with Hugh Mac-
intosh, local agent United Grain
Growers.

W. G. Andrews announces a new
business policy—read his advertise-
ment.

S. McCrea is prepared to do oxy-
acetylene welding in an up-to-the-
minute manner.

See Alex. McDonald for Maple
Leaf tires and tubes.

Read the prices in the Menteria
advertisement.

plumbing, gas fitting or steam fitting
—Prompt and efficient service guar-
anteed.

Avery Tractors are the best trac-
tors—Dilatash & White sell them.

Bulbs and cut flowers at K. A. Y.
Realty.

Read the announcement of D. M.
Leyden re undertaking.

Life insurance in the Manufac-
turers' Insurance Co. pays—get it
from H. C. Winter Co.

Libby's canned fruits are the stand-
ard for canned fruit—get them at the
Whitehall Grocery.

You never miss the water—You
never miss Bawden's Family Loaf till
deprived of it—then how you'll miss it.

A good record for quality meat—
reasonable prices, cleanliness and ser-
vice—Macleod Meat Market.

Victor records at Ferguson's.

Mens' furnishings—get them from
R. T. Barker's.

Smart looking mended shoes—Le-
mire turns the trick.

Undertaking Rooms on 16th Street
between 2nd and 3rd Ave.—Phone
218—George McFarquhar.

Gifts that last—R. W. Russell,
Jeweler, sells them—see advertise-
ment.

A monthly payment income—con-
sult A. F. Grady.

It pays to wear good clothes—get
them from Moreash.

Starr-Gemmel, Columbia and Bruns-
wick records at R. W. Russell's.

French Ivory for Christmas gifts—
At Doney's, the Jeweler.

Hot Water Bottles at R. D. McNay's.

Don't fail to read the Hudson's
Bay announcement of special bargains
at the Closing Out sale now in pro-
gress.

The City Garage is a busy spot—
a sure sign of the efficient service
given there.

Go to Lambert for estimates on
your building or other carpenter jobs
—you know from his record he will
give you satisfaction. Shop phone 4—
House phone 82.

Trunks, Valises, Harness and Sad-
dles—Get these at The Great West
Saddlery.

Lemire will attend to the sole with
the hole—see the shoe doctor.

ANNIVERSARY SERVICES

The anniversary services of the past Sunday in the Methodist church were perhaps the best since the pre-war days.

The congregations were good, both morning and evening. The spirit of the services was delightful.

The financial returns were highly satisfactory. The pastor made an appeal for interest and taxes and the response promises to cover both of these.

The preacher, Rev. W. A. Smith, B.D., gave the excellent sermons with a strong spiritual appeal.

The music at both services was in harmony with the spirit of the day. The young people's choir at the morning service under the leadership of Mr. E. W. Demer, and with Miss Thewlis presiding at the organ, gave special tone to the service. Everyone was delighted with the girl's choir.

At the evening service there was excellent music. Mr. J. T. Doney led the choir and Miss Florence Nichols was the organist, supported by the violins played by Miss Robby Thiel, and the White brothers, also the cello by Miss M. Griffin. Mrs. James Young by request in association with Armistice day of the past week, with her usual superior ability rendered "In Flander's Field." The anthem by the whole choir was rendered in good style.

The day closed with a social hour for strangers in the school room, at which familiar hymns were sung, and brought to an end a delightful day.

ROARING RIVER

Pauline Frederick's latest Goldwyn picture is an unusual solution of a difficult subject, presenting as it does the serious dilemma of a finely bred girl who, in a state of physical exhaustion yields to the foolish advice of a landlady and permits her to answer an advertisement in a paper devoted to "Matrimonial News." The alluring advertisement has been inserted by the vicious portmistress of a western mining town in an attempt to humiliate the most "desirable" citizen of the town for being blind to that lady's charms. She carries on the correspondence with the girl in the east, with the result that the latter sells her last few pieces of jewelry to pay her way west. When she finally arrives and is driven to the mountain shack of her supposed fiancé, and subsequently spends the night waiting for his return.

The next morning he returns from a bear hunt, absolutely ignorant of the plot which has made both him and the girl victims of the spite of a vindictive woman. As neither the girl nor the man seem able to comprehend the reason for the other's actions when they meet, the girl decides to leave, but finds that the man confronting her believes himself to be the victim of a blackmailing intrigue. As he bars her way, she shoots him. Fortunately the wound is not serious and the girl remains to nurse him back to health. In the course of her stay, the plot is unravelled; and what began as a cruel joke ended in a happy marriage. This picture will be at the Empress on Friday and Saturday.

REQUIRE LICENSE TO TRAFFIC IN WILD ANIMAL PELTS

At the last session of the Legislature the Game Act was amended and now provides that all persons trafficking in the pelts of wild animals shall obtain a license before doing so. It is provided that any person exporting or shipping out of the province the pelts of any wild animals shall obtain Exporter's License, also that a tax shall be paid on the pelts on wild animals as follows:

Badger 25c, beaver \$1, Wolverine 50c, Squirrel 1c, Ermine 10c, Otter \$2, Wolf 75c, Lynx \$1, Marten \$2, Skunk 10c, bear \$1, fisher \$2, fox (silver) \$10, fox (black) \$10, fox (rusty silver) \$10, fox (cross) \$2, fox (red) \$1, fox (kit) 25c, muskrat 5c, mink \$1, Moose 50c, caribou 50c, deer 25c, sheep 25c, goat \$1, elk \$1.

Trappers who wish to avail themselves of the exemption to the extent of \$10 from the payment of the above tax on skins or pelts which they wish to ship out of the province of Alberta, must forward such pelts or skins to the Department of Agriculture, Edmonton, "Charges Prepaid," the same to be inspected and forwarded to destination as directed by the owner. Res. fur dealer's license \$5; Res. fur buyer's license \$5; Non-resident fur dealer's or fur buyer's license \$100; Exporter's license \$1.

WARNING

According to Alberta Municipal District Act 1920, Part 5, Section 191, Clause 15, penalties are provided for obstructions of roads. In this connection Bright Municipality has passed a by-law prohibiting the allowing of accumulation of Russian Thistles, etc., along fences abutting on highways, and all persons having on their property such fences are warned that accumulations of Russian Thistles must be removed to obviate the possibility of breaking down of fences, and so obstructing of roads, causing snow drifts, soil drifts etc.

COUNCIL MUNICIPAL DISTRICT OF BRIGHT, NO. 69.

YIELDS OF BUSH FRUITS

At the Central Experimental Farm, the average yield of the Herbert raspberry for two years on one row ninety feet in length was at the rate of more than 205 bushels per acre. Under field conditions, cultivated raspberries produce from 50 to 100 bushels of crop per acre, according to the season. Gooseberries at 40 pounds per bushel yielded at the rate of 909 bushels to the acre. Red currants gave 202 bushels to the acre in one instance and 409 bushels in another. These figures are taken from a new bulletin issued by the Experimental farms at Ottawa on the subject of "Bush Fruits." In this pamphlet the currant, gooseberry, raspberry, blackberry, dewberry and loganberry are treated in such a way as to make clear the best practice in their cultivation and to understand the merits of the different worthy varieties. It is pointed out that the currant, gooseberry and raspberry grow wild almost if not quite to the Arctic Circle. The treatise is the results of experiments carried on at the Central Experimental Farm and the widely separated branch farms and stations. This publication which is designated Bulletin

Fifty Dollars a Month

(Guaranteed to you by the Canada Life)

How Fifty Dollars a Month looks to the Average Man

Age 20—Happy on Fifty Dollars a month.

Age 21—Fifty Dollars a month is not enough.

Age 35—Thinks he can easily afford to "spend" Fifty Dollars a month

Age 50—Things are not going as well as they were.

Age 55—Strange how these assets have depreciated! Fifty Dollars a month is good interest on \$10,000, and not to be despised.

Age 60—He finds Fifty Dollars a month pension, added to what income is left, brings happiness.

You know of men well up in years who are still "drudging along". They cannot stop if they would, but must go on to the end of their days working for a living. You can avoid that.

Why Not Pension Yourself?

Why not "take stock" of your present financial position—to size up your personal affairs and decide on a plan for the future?

Our New Pension Plan

guarantees that upon reaching a certain age in life, you will receive a *monthly* cheque for \$50.00, \$100, \$200, \$250—as you may now decide—and this monthly payment cannot cease as long as you live.

An Income for Life

Think what it may mean to you to be certain of an income right up to the end of life, when you consider that 97% of people in their later years are partially or wholly dependent upon others for support.

When they were younger they did not have the chance now offered you. It was not then possible to secure such a convenient and certain provision as this Monthly Pension Plan.

And This is Not All

Suppose some day before you reach age sixty you meet with a mishap and become totally and permanently disabled through accident, illness or any cause. (Such a thing has happened soon after men have secured this new policy of the Canada Life.) Immediately, the payment of further premiums would be cancelled. The Canada Life would become responsible for sending you \$50.00, \$100, \$200, \$250, a month, as arranged, for the rest of your life.

There are many other benefits.

An average deposit of only a few dollars a month will return you \$50.00 a month later on.

Do Not Pass This By

Canada Life

GEORGE, H. SCAUGALL

AGENT

MACLEOD, ALTA.

Dear Sir: Without obligation on my part, you may read me particulars of
Canada Life Assurance Company, Macleod.
Name _____ Address _____
Born _____ day of _____ 19____

through some of the irrigated lands lately and passed places that were bought for \$35, but today you could not buy them for \$150 an acre as a result of the irrigation schemes.

While we may speak about the huge amount of money required to put these irrigation schemes into operation and the consequent liabilities upon the government to have land increase from \$15 to \$135, any land company or government that possesses land increasing to that extent would not consider that a very heavy liability.

I am a little disappointed that more of these people who are so desirous of this southern Alberta development scheme are not present today. I do not think it is any desire on their part not to lend their support and interest to this, but they are counting their dollars today and find they are very small in number. It is only in the hope they have of bringing forth the waters that keeps them on the land today.

In conclusion I wish to say this, that irrigation is beyond the experimental stage and when these five or six hundred thousand additional acres of land come under irrigation, I do not think the north will have anything to say as to not making a living in the South. It will be a place where the people in the North will be able to finish their stock and send them to the market in a perfect condition.

I want to say in connection with our project and the project of the larger scheme, that I appreciate the assistance given by the men in towns. Especially that of Mr. Marnoch who has worked with all the zeal possible for the furtherance of this irrigation work while the Board of Trade of Lethbridge and every one in the city have lent a hand in this work.

It was thought at one time that all the Boards of Trade had to do was to get manufacturers to come to their cities, but they have now come to the conclusion that they must have a prosperous farming community and the way to get that is to see that the man on the farm is able to make a happy and comfortable home for himself and his family. I hope to live to see the accomplishment of the fact when these lands will be irrigated to the fullest possible extent.

Jenny Riano, an orphan and sole support of an invalid grandmother, meets, under her tree-house, Royal Renshaw, son of Mrs. Aaron Shuttles, by her first marriage. A romance ensues and they are secretly married.

Royal's wealthy parents, social climbers, plan for the marriage of their son to Jolanda Van Mater, the daughter of a social leader. Learning of Royal's secret marriage, they send him to Europe and tell Jenny that he does not love her and persuade her to have the marriage annulled.

At the death of Jenny's grandmother, she leaves the scenes of her troubles for New York, where she tries to earn a living as a violinist, but is forced to work in a shirt-waist factory.

Mrs. Rossiter-Jones, a patroness of budding genius, discovers Jenny and offers her a musical training. At a private concert in the home of Mrs. Rossiter-Jones, Jenny meets Royal, who is married to Jolanda. He tells her of the deception practised by his

THE PROGRESS OF THE TABER IRRIGATION PROJECT

(Continued from Page Three)

however, was not considered as any argument against going ahead with the system nor by the C.P.R., but before the labor was actually undertaken material had increased and we received a new price this spring of \$14.50 from the C.P.R., but I suppose it was an estimated cost and they hardly knew where they were at. A little later after we had become impatient in the district, and after several mass meetings, the Board was called to Calgary stating that something definite would be given to us, and when we reached Calgary, we were told that they had received bids from contractors to undertake the work at a certain figure, and we were told the price would be raised to \$16.50. This was given to us as a final figure and we had very little argument to offer against it. Some little delay followed, but I think we have made pretty good headway since that time.

We have the agreement with the C.P.R. to construct the system. They have taken over the bonds of \$270,000 with interest at 6 per cent., which

the district pays. The first ten years, there is no payment of principal, and the last ten years the bonds given are to be met in equal instalments. This will work out like this. The district will pay 50 cents an acre for water at the headgates, then the interest during the first ten years will amount to about 96 cents per acre. Of course there is no principle of the first ten years, but the beginning of the 11th year there will be a payment of principle of something like 95 cents also. That of course, will cause the interest to decrease from year to year, I think, about 5 cents per acre.

Now we have the work actually started and it is a great deal of encouragement to the people of the district who have suffered greatly from droughts.

I had it reported to me a few days ago that people who had recently come to the district actually suffered from lack of food. One rancher called at a house and enquired for a drink of water and he was given it, and asking the people how they were getting on, they said that they had come to the stage where they did not know where the next meal would come from. That family came here some years ago with some means and it

had all been spent trying to raise a crop. I think those conditions could have been overcome by irrigation.

We believe that in about ten years we will have a country down there that will lead all of the irrigation districts. Our soil is especially adapted to irrigation and the benefits of irrigation on that soil have been demonstrated by the few tests we have already made.

I have been not only interested in the smaller projects, but also in the larger field of irrigation in Southern Alberta. I believe that the gathering held in Lethbridge in the spring has added meaning now because conditions have been such as to show what conditions we must encounter. Aside from sickness and death in the farmer's family, there is nothing so depressing and heart-rending as to exert all his energy in trying to put in a crop and go to a great expense and then in June or July see these crops burn before his very eyes, and as a mental relief he takes his wife and family and goes to the river and sees those magnificent streams flowing by his door and smiling back at him as much as to say, if you had made use of us, things would have been different.

It is high time now that we do not

allow those rivers to flow past as we have been doing. I came from the States where irrigation was a very vital thing and I hope that the people of Canada are not losing any privileges as to the division of the water owing to our procrastination. One of the speakers has said that impatience was the besetting sin of the people, and that we could not expect to have results so rapidly but that we must allow time for the development of these projects. I sometimes think that procrastination in this particular case is our besetting sin and I think it is up to the government to see that these waters do not go to waste when they will bring such grand results to the farmer and the country.

When the Hon. Mr. Mitchell was speaking about the difference between the North and the South of this province, I thought, it is necessary to divide this province in order to bring about this question of irrigation. But, if it is, I tell you it will have to be done. If the people in the north are worrying about drainage instead of irrigation—and I don't know that we have ever objected to assisting them in draining their lands—on the other hand we expect to see the importance of irrigation. I have been going

A MODERN MORALITY DRAMA

The long expected engagement of the modern morality drama, "Experience," which has been one of the biggest theatrical sensations of recent years, is now announced for an en-

gagement of one night, Thursday, Nov. 25, at the Empress theatre.

The play was written by George V. Hobart, and it is patterned after the old-time morality dramas of four centuries ago. Yet while it retains the form and manner of the old plays, it is strictly up to date, and is ad-

apted to modern conditions. The great novelty lies in the fact that it treats modern and up to date situations just as the priest-playwright of four centuries ago treated the moral and spiritual problems of that day and age.

In "Experience" one sees in ten vivid and dramatic scenes the principal events in the life of an average young man who goes forth into the world in search of fame and fortune. The leading character—called Youth—says farewell to Love in the little country cottage, and with Ambition as his guide, sets forth into the big world. At the gates of the city, Youth meets with Experience for the first time. Experience is shown as a wise old gentleman who knows everything there is to know, and he announces that he will accompany Youth upon his journey. He introduces Youth to Pleasure, symbolized as a beautiful woman, and Pleasure takes Youth to the Primrose Path, where he is fascinated by the gaiety and entertaining life which unfolds before him. The glittering and gorgeous outlook does not last long, however, for when Ambition falls by the wayside, Youth starts upon the downward path at a terrific rate. He succumbs to various temptations, and is on the high road to Perdition when his salvation is brought about through a song he hears outside a church. The boy, discouraged but not beaten, determines to go back to Love and the little country cottage, and with his new friend Experience, he returns to Love, having lost the first fight, but having won the greater victory by conquering the evils in his own heart.

Experience will positively be given here by the same company that is now playing at the Grand theatre, Calgary. Seats on sale Saturday at Ferguson's drug store.

"EXPERIENCE" COMING

"Experience," George V. Hobart's modern morality comedy drama, will be presented by F. Ray Comstock and Morris Gest at the Empress theatre on Thursday night, Nov. 25th. "Experience" has been one of the great hits of our generation, and it is now in its seventh year of success. It contains a little of everything and something that appeals to everyone. The hardened theatre goer will also be pleased. He will find a blending of musical comedy, a bit of drama, a dash of "Pilgrim's Progress" and a touch of farce comedy. For the moralist, for the man or woman who goes to the theatre only on exceptional occasions, "Experience" will prove a boon. They will find in it everything they believe should be in a play.

Mr. Hobart has taken as his theme

NOTE—EXPERIENCE WILL POSITIVELY BE GIVEN HERE BY THE SAME BIG COMPANY THAT PLAYS CALGARY, WINNIPEG, TORONTO, VANCOUVER AND ALL THE LARGEST CITIES IN THE UNITED STATES.

the journey of Youth—the average young man of today—through life, and dressing it in most modern garb, setting it in the gilded joy palaces and the sordid wine dens of today, has told the story of Youth's adventures in the big world. The curtain rises on a pastoral scene in the land where Dreams Begin, with Ambition. Youth is discovered taking leave of his sweetheart, Love, to go with Ambition into the great wide world to seek his fortune. He leaves Love in the good care of Hope and sets forth on his journey. Arriving in the great city, his first meeting is with Experience, who becomes his companion and the one acquaintance who never leaves him.

Pleasure meets him next and with her coming Ambition ceases to retain his hold on Youth, and Experience's kind advice is tossed aside as worthless. Opportunity calls, but is unable to obtain a hearing, and then, following Pleasure along the Primrose Path, Youth becomes acquainted with Travel, Sport, Privilege, Deceit, Slander, Pride, Wealth, Passion, Intoxication and a host of others.

From the gay night life in the Golden Cabaret on the Primrose Path of Pleasure Youth steps into the Corridors of Chance, where he loses all his worldly wealth playing roulette, and then his path goes downward. On he goes to the House of Lost Souls, into the Street of Forgotten days where he is saved from Crime by the never-failing miracle of a mother's love, and goes back at last to the Land Where the Dreamer Awakens, where he meets Love and Hope and again finds Ambition.

The cast engaged by F. Ray Comstock and Morris Gest is exceptionally strong. To be given in Macleod by the same company of 40 people that are now playing at the Grand theatre, Calgary. Seats on sale Saturday at Ferguson's drug store.

Hamilton, Ont., expects to have a visit in January from U.S. President Harding.
